JOSEPH GIANNUZZI
CHIEF OF POLICE

Borough of Mountainside ordinance 10-2.1 requires all residential and commercial structures to annually register and maintain a permit for any security and fire alarm system with central station monitoring. If a third party or paid service notifies police when the alarm is activated, you must register the alarm and maintain a valid permit each year. In an effort to promote responsible use of such systems a data base of accurate and up to date contact information is maintained by police. By doing so nuisance alarms can be quickly silenced and police services are not drained by repeat responses to faulty systems.

Unregistered alarms that require police and or fire response will result in the owner/tenant being issued a summons for the violation which are heard in the municipal court.

Please visit the Borough's webpage at www.mountainside-nj.com/police and complete the registration/renewal process under "Helpful forms" to avoid a violation.

Sincerely,

Joseph Giannuzzi
Chief of Police
