## **Regarding the Use of Body Worn Cameras by the Mountainside Police Department**

It is the policy of the Mountainside Police Department to utilize BWCs to assist agency personnel in the performance of their duties by providing an accurate and unbiased recorded account of an incident.

BWC recordings are invaluable to law enforcement for evidential purposes. BWCs have demonstrated their value in the prosecution of criminal, traffic, and other related offenses and to protect personnel from false claims of misconduct. Additionally, this equipment will provide valuable instructional material that can be utilized for in-service training programs.
